

ICE FISHING CONTEST

The place of departure for this program is Tievan Kammi in Ylikiminki. Once in Kammi, the participants will be given uniform and high-quality equipment needed for the day. Transportation to a desert lake will either be in a sleigh pulled by a snow mobile or alternatively by a horse. Then the contest may begin!

Possible fish we will be catching will consist of powan (whitefish), perch and rainbow trout. The Ice Fishing Master with the best catch will be rewarded at the end. From the fish we caught, we will make a delicious fish soup by the blaze of our campfire – and should it happen that Ahti (water god of the ancient Finns) would not be so favorable for us with the catch, our guide will have some "compensation" to offer.

- duration appr. 3 hours
- incl. fishsoup
- equipment needed for the program
- guide services
- transportation from Tievan Kammi desert lake and back.

Price

EUR 50 / person
